BUDGETARY/FISCAL IMPACT:

There are no budgetary or fiscal impacts associated with this report.

BACKGROUND/RATIONALE:

As of March, 2022, the District had the following investments:

Public Inst. Bank Deposit Account (Collateralized 110%)	\$31.74 Million
Money Market Accounts (7 small banks - FDIC Insured)	\$1.73 Million
Treasury Bills	\$47.69 Million
LAIF	\$10.00 Million
Agency Bonds	\$5.00 Million

In compliance with Section 15.0 of Board Policy 349, Investment Policy, the Monthly Report on Investments for February 2022 is forwarded to the Board of Directors for review.

The portfolio contained in the report is in compliance with Board Policy 349, and the District is able to meet its expenditure requirements for the next six months.

Return on the District's investments has been in line with the federal funds rate, as the funds are invested mainly in Treasury bills and Money market funds. Since March of 2020, as part of the federal government's relief measures against the economic impact of the COVID-19, the federal reserve lowered the federal funds rate to near zero and has maintained it near zero. As a result, return on the District's investments in the near term is expected to remain low. The Federal Reserve just started raising rates in this month, March 2022, which may impact investment return in near future.

ADVANTAGES/DISADVANTAGES:

This report does not recommend a course of action with notable advantages or disadvantages.
