New  
Information

Measure Customer Satisfaction and Public Perception and Prioritize Issues of Key Concern	Add custom feedback survey option at the end of calls to the Call Center by close of FY2023	The Call Center ("ACC") has partnered with Medallia - a global leader in customer experience research – to create and implement an after-call survey which will be sent to customers at their request, either via text or email. Examples of surveys similar to those ACC will be sending to AC Transit customers/callers are available for review. Creative team provided AC Transit logos for use in these surveys. Project is nearing completion/implementation.		The Call Center ("ACC") has partnered with Medallia - a global leader in customer experience research – to create and implement an after-call survey which is sent to customers at their request, either via text or email. Launched in mid-May of 2023, the survey has thus far yielded positive results. Some recent examples: Surveys sent in Q2 FY24: 459. Survey response rate: 29.6% (percentage of surveys completed). Overall rating to date: 4.9 (out of 5)
Informing Riders on Service Implementation	Develop curated signage experience to include wayfinding for persons with disabilities by close of FY 2024	After further discussion with the AAC to determine sign content and possible installation locations, a plan to produce sign prototypes for review was developed. Prototypes of two signs are currently in production. The samples will be presented to stakeholders for review. They will then be installed at stops as a test of their usefulness and usability.		Communications prototyped braille at-stop signage and took input from the GMAC. The GMAC recommended against continuing with braille stop signage. Communications is currently working on tactile maps for wayfinding in key locations, as a prototype. In addition, the MTC-led regional signage and wayfinding project includes an accessibility consultant, and the District is actively participating in that process and looking to learn from it. IT is simultaneously exploring digital wayfinding options.
Informing Riders on Service Implementation	Audit existing communications channels for effectiveness and develop and updated communications plan in tandem with the new network plan		Upcoming	
Informing Riders on Service Implementation	Increase visibility of service changes on social media platforms by 15%	Info sent via social media, website, eNews, mobile app push notifications two weeks prior to the June service change.	In Progress	Communications has grown social media following by over 11% since January 2023, and has expanded posting on channels including NextDoor. Service changes are prioritized for greatest visibility. Additional social media channels and approaches are under evaluation.
