Board discussion:

Director Williams asked if there is any funding for Paratransit on federal level; and if there are any State programs to address homelessness. Mr. Jones explained that paratransit is a standing priority on the federal level and would research if any new bills are of note. Mr. Jones commented that considerable funding is available to municipalities on the state level related to homelessness. Mr. Jones further commented that managed care health providers such as HMOs receive state and federal funding to provide medical transportation services but are not obligated to reimburse public transit providers for the service and that staff's goal is to require the health providers to reimburse AC transit for the MediCal-eligible trips which would help cover the costs that AC Transit has been absorbing when providing

paratransit services for MediCal-eligible trips.
