Public Comment:

Adina Levin, Seamless Bay Area, noted the potential connection and synergies between Plan Bay Area 2050+ and Realign to attract more funding and investment to provide greater and more equitable access to transit. Levin suggested that it would be helpful for AC Transit staff to work on the goals and metrics for Plan Bay Area 2050+ such that they support Realign.

Anthony Nachor was interested in how AC Transit would integrate the local network with the regional network and how the District would connect with other transit agencies in the region.
