

The Summit

The UITP Global Public Transport Summit is the world's gathering place for public transport professionals to share ideas, innovate and make meaningful connections.

The summit consists of an immersive four-day experience which has a diverse programme of world-class Congress sessions and an outstanding Exhibition full of the latest innovations, solutions and products.

The next edition of the UITP Global Public Transport Summit will be taking place in **Barcelona, Spain from 4-7 June 2023.**

Besides Barcelona being known for its brilliant architecture and art museums, golden beaches and tasty cuisine and wine, the capital of Catalunya excels in public transport and is committed to environmental, sustainable mobility and social issues.

Seize this unique opportunity for growth and development in this fabulous city by joining the whole industry at the UITP Summit. It's the ideal place to connect with your customers and position yourself as a leader of urban mobility.

Bright Light of the City

The theme for the 2023 Global Public Transport Summit is 'Bright Light of the City'.

Barcelona is a city where light shines brightly through its rich Mediterranean culture, beautiful architecture, art, food and social activities.

One pivotal element which allows people to embrace the magic of this charming city is through its well-connected public transport system.

Public transport is the 'Bright light of the city'. It gives passengers the freedom to discover the city, to commute, meet friends & family, or navigate wherever you need to go. Public transport brings light to any city and energises the lives of all those who use it.

It provides more than a necessary service; it brightens the urban landscape. It is simply the brightest decision you can make to move around the city.
