Winter 2024 School Addendum

Executive Summary – Supplementary School Service Addendum

Division	Line	Change	Reason	Operator Cost
Multiple	Supplementary Service	Restoration of supplementary school service for Fall	School summer break ends and students return to school. The attached document has minor trip changes for many of these lines based on bell time information from the various school districts serviced by AC Transit.	0
Multiple	Various	Changes made to scheduled leave times.	Changes to scheduled leave times were made for the following reasons: 1) Additional time needed to be given between dismissal time and scheduled leave time to allow student to walk to bus stop 2) Bell time changes; 3) Lack of consistency between Regular Service and Early Day service; 4) Operational concerns	0
Multiple	Various	Changes made to staging times	Changes to staging times/arrival were made to address operational concerns	0
D3	Line 676	Conversion of Line 76 tripper into two new Line 676 trips (Hilltop Mall to Richmond BART)	Overloads on Line 76 during school (Summit Tamalpais) dismissal times.	0
Total				+0

The table above provides a high level description of the Supplementary School Service changes proposed for the Winter 2024 Divisional Sign up by the Service Planning department. These changes would be interlined with transbay and local service as to keep the operator count flat beyond those already approved by the Fall service specs, which is within the forecasted operators the District expects to have on board by the Winter 2024 service period. Additional details for each of these service specifications can be found in the document. Questions can be directed to Senior Transportation Planner Owen Goetze (Ogoetze@actransit.org) in the Service Planning Department.

Winter 2024 School Addendum

LINE 604 (from Oakland Hebrew Day School)

Planning contact: Sean Diest-Lorgion

Scheduling contact: Andrew Broadbent

Estimated NEW bus requirement: 0
