Information About Your Pricing

Carriers are required by law to collect transportation and other related charges computed on the basis of their lawfully published tariff rates regardless of any prior rate quotations or estimates. Exact charges for loading, transporting and unloading are based upon the actual scale weight of the goods transported, plus other services rendered, and all such charges may not be determined prior to the time the goods are weighed and all services completed. Additional quantities and/or services requested or required to service the move will be added to the price shown above and must be paid at the time of delivery. If the actual tariff charges for services performed exceed 110% of the Estimated Price, the carrier will deliver your shipment for payment of the Estimated Price plus 10%. You are obligated to pay the balance, if any, within 30 days after delivery.

WARNING: If a moving company loses or damages your goods, there are two different standards for the company's liability based on the types of rates you pay. **BY FEDERAL LAW, THIS FORM MUST CONTAIN A FILLED-IN ESTIMATE OF THE COST OF A MOVE FOR WHICH THE MOVING COMPANY IS LIABLE FOR THE FULL (REPLACEMENT) VALUE OF YOUR GOODS** in the event of loss of, or damage to, the goods. This form may also contain an estimate of the cost of a move in which the moving company is liable for **FAR LESS** than the replacement value of your goods, typically at a lower cost to you. You will select the liability level later, on the bill of lading (contract) for your move. Before selecting a liability level, please read "Your Rights and Responsibilities When You Move," provided by the moving company, and seek further information at the government website www.protectyourmove.gov
