Item Description: (Please be thorough. Attach additional information if needed.)

Put together a report that shows how the funding that AC Transit receives is used to benefit not only our local community but businesses and communities in other areas of the country as well. Public transit has a big economic impact on our communities and we need to show that the money we are spending is well worth the investment. APTA has a tool to help develop this economic impact information. The report should also include specific information on how the money we've spent over the last 2 years has gone back into the community. How much was for goods, labor, etc. Both a local/region amount, CA amount, and US amount.

Purpose:

As we move forward with a regional measure, we want to make sure that we are able to communicate the economic impact that AC Transit has to our community and to communities throughout the country. This information can be used as we discuss funding with our legislators, local leaders, community and businesses alike.

What will be accomplished/desired outcome:

A concise economic impact statement that we can use consistently while we gather support for financial sustainability.
