Investing in communities that depend on transit

Investing In Our Communities

Programs that put riders first

EasyPass

- ***Unlimited rides, one pass***
- ***4.7M Annual Trips***

Deeply discounted annual passes for employers, colleges, and residential communities.

Clipper START

Half-price fares for riders who need it most

50% off every trip for income-eligible adults across Bay Area transit.

Safer Streets

Bus Only Lanes & Bus Stop Enforcement

Onboard camera technology encourages safer driving around buses.

Regional Network Management

Coordinating transit priority across the Bay Area

Working with regional partners to make buses faster and more reliable across major corridors.

Realign

Right-Sizing Our Bus System

Redesigned 104 lines to match today's ridership, improve connectivity, and boost efficiency.

AC Transit Riders Depend on Us More Than Ever

- Higher-income commuters are riding transit less often.
- **Lower-income riders still rely heavily on transit for daily needs.**
- **More than 60% of weekday AC Transit riders surveyed by MTC earned less than \$50,000.**
- 70% of Bay Area transit riders earn under \$100,000.
- 65% of Bay Area transit riders had no household vehicle available for their trip.

East Bay riders with the fewest transportation options would bear the brunt of possible service cuts.

Accountability and Oversight

Making every taxpayer dollar count

Strengthening Fare Compliance

Every fare supports service

Following the first fare increase in six years, a second arrives July 1, 2026, paired with a campaign on the importance of paying the fare and reducing evasion through fare compliance.

2026 State Audit Report

Validated by California's State Auditor

AC Transit and five other East Bay transit agencies are already working together well across the region. The real problem is mounting fiscal deficits that threaten service.

SB 63 Financial Efficiency Review

Independent review confirms we're controlling costs

Independent review confirms average annual savings of \$33 million since FY20.

Disciplined Financial Management. Strong Credit Rating.

S&P Global Ratings: AA+

One of the highest credit ratings, demonstrating a very strong ability to meet financial obligations.

Financial Outlook

Structural Deficit & Mitigations

What's Behind Our Budget Deficit?

- Emergency relief funding that sustained service through the pandemic is now gone
- Operating costs — wages and benefits, fuel, parts, and bus production — are rising faster than revenues
- Flat regional sales tax revenues

Financial Outlook

Structural Deficit & Mitigations

Smart Cost-Cutting

Every department is tightening spending

\$9M+

In savings delivered in
FY 26

- Hiring limited to critical roles that directly support service
- Temporary employees scaled back — saving up to \$2M each year
- Brought outside professional services in house
- Partnered with other agencies to buy goods and services for less
- Temporary pension payment reduction approved for FY 2026–27

If New Funding Doesn't Materialize

\$200M, Projected Four-Year Deficit

Operational Projection (excluding Capital) – Unfunded Scenario

▼ **16%**
Bus Service

Potential loss of 300 jobs and cuts to 1,500 paratransit trips.

Potential New Funding & Use of Bridge Loan

November 2026 Ballot Measure

- SB 63 authorizes a 5-county sales tax measure: 0.5% in Alameda, Contra Costa, San Mateo and Santa Clara and 1% in San Francisco
- If the measure is approved by voters, AC Transit receives \$52M annually
- Would provide funding for other transit operators and local projects prioritized by each county
- Would preserve current bus service levels

Regional Transit Bridge Loan

- \$590 million loan offers short-term relief
- **AC Transit will receive \$55 million**
- The loan covers most of our \$60 million deficit in FY26-27 allowing us to maintain current service levels into the coming fiscal year

Protect As Much As Possible

Plan for the worst, hope for the best

Why Plan for Service Reductions?

- Protect the investments we've made
- Continue to use tax dollars wisely
- Deliver the best service we can in the worst-case scenario
- Protect as much bus service as possible

Guiding Principles

- Maintain the Realign network
- Minimize complete service eliminations
- Focus on span and frequency reductions
- Restructure high-cost services
- Service impacts proportional across bus network

Proposed Contingency Service Plan

Primary Route Network

The "backbone" of the network is protected

Lines 1T, 6, 9, 18, 40, 51A, 51B, 52, 57, shared 72/72M/72L:
