I. PURPOSE

The purpose of this Policy is to provide for the management of District Records, to ensure compliance with legal requirements, and to apply efficient and economical management methods to the creation, utilization, maintenance, retention, preservation, and disposal of District Records.

II. PERSONS AFFECTED

This Policy applies to all District Board Members, Board Officers, employees of all departments and divisions, as well as any consultants, contractors and agents that create or maintain District Records.

III. DEFINITIONS

“Record” means any recorded, written, or printed material, regardless of medium, characteristic, or location, made or received by the District, including its employees, agents, directors and officers, that serves to document the District’s policies, procedures, functions, actions, operations, and decisions. It includes, without limitation, documents, drafts of documents that are required to be kept in the regular course of business and that are stored separately from the final versions, correspondence, emails, electronically stored materials, memoranda, analyses, audio and video recordings, notes, photos, reports, contracts, and any communications regarding same. Unless otherwise required by law or regulation, an electronic copy will be considered the official record.

“Non-Record” means any recorded, written, or printed material, regardless of medium, characteristic, or location, made or received by the District, including its employees, agents, directors and officers, that is not usually included within the definition of Records and is of short-term value and made for the convenience of the author; such as copies kept for convenience or reference by non-custodians; temporary notations; routine voicemail, text or instant messages, rough drafts or notes that do not serve to further the District’s policies, procedures, functions, actions, operations, and decisions; and reference materials that are later incorporated or referenced in the District’s business records. Non-records also include library or museum material intended solely for reference or exhibition and non-business-related personal communications kept in District offices or email. Unless otherwise required, Non-Records may be disposed of as needed in the usual course of business.

“Confidential Record” means Records containing information that would be considered private (such as personnel or medical Records); business or proprietary information that is not subject to

public disclosure; records protected by the attorney-client privilege and/or the work product doctrine; and records prohibited from disclosure by law.

“Historical Record” means Records with enduring value because they reflect significant historical events, document the history and development of the District or the community it serves, or provide valuable research data. Notwithstanding the Records Retention Schedule, Historical Records shall be maintained in perpetuity.

“Litigation Hold” means notification from the Office of the General Counsel requiring recipients to maintain records pertaining to anticipated or active litigation.

“Record Custodian” means the designated department responsible for maintenance and destruction of the official or original record pursuant to this Policy. Custodians shall be identified in the Records Retention Schedule. The Records Retention Schedule shall identify the Record Custodian for each category of records. Typically, the Record Custodian is the department that originates or owns the record; however, exceptions may be noted on the Records Retention Schedule.

“Permanent Record” means Records that are required to be kept in perpetuity, usually identified by statute or other written guidance as identified in the District’s Records Retention Schedule.

“Records Retention Schedule” means the schedule [that is attached to this Policy](#), which identifies and describes the District’s records, identifies the Record Custodian for each category of records, and defines the District’s legal and compliance record keeping requirements. [The Records Retention Schedule will be maintained by the Office of General Counsel and published to all departments.](#)
