*Note that with the District's on-going transition to a 7-ward system of representation this table includes double-counting of stops where wards currently overlap.

*****District-At-Large*** refers to the area including portions of Oakland and Piedmont that as of 2025 does not have an elected Ward director due to the ward transition discussed above; therefore, at this time it is currently only represented by Dir. Young until elections are held and new ward directors are sworn in 2026.
