

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE STATE OF CALIFORNIA  
TRANSPORTATION DEVELOPMENT ACT (TDA) AND RULES AND  
REGULATIONS OF THE PUBLIC TRANSPORTATION MODERNIZATION  
IMPROVEMENT AND SERVICE ENHANCEMENT ACCOUNT (PTMISEA) AND  
REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Board of Directors  
Alameda-Contra Costa Transit District  
Oakland, California

**Report on Compliance with State of California Transportation Development Act and Public  
Transportation Modernization, Improvement and Service Enhancement Account Guidelines**

***Opinion on TDA and PTMISEA Program Compliance***

We have audited Alameda-Contra Costa Transit District's (District) compliance with the types of compliance requirements identified as subject to audit in the Transportation Development Act (TDA) Guide and the Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA) Guidelines adopted by the California Department of Transportation, that could have a direct and material effect on the District's TDA and PTMISEA programs for the year ended June 30, 2025.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the TDA and PTMISEA programs for the year ended June 30, 2025.

***Basis for Opinion on Each Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*); the TDA Guide; and the PTMISEA Guidelines. Our responsibilities under those standards and the TDA Guide and PTMISEA Guidelines are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance with the TDA Guide and PTMISEA Guidelines. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's TDA and PTMISEA programs.

---

(Continued)

**Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the TDA Guide, and PTMISEA Guidelines will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about District's compliance with the requirements of the programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the TDA Guide, and PTMISEA Guidelines, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the TDA Guide and PTMISEA Guidelines, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**Report on Internal Control over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of the TDA or PTMISEA program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of the TDA or PTMISEA program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of the TDA or PTMISEA program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

---

(Continued)

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the TDA Guide and PTMISEA Guidelines. Accordingly, this report is not suitable for any other purpose.
