**Alita Dupree** commented on the need for additional buses by the end of the year, advocating for an increase in AC Transit's zero-emission bus (ZEB) fleet from 9% to 17%. Dupree noted that ZEBs are most commonly seen on Lines 36, 29, and 51A/B. Dupree also raised concerns about system interconnections and recommended that AC Transit double its charging capacity to support expansion.
