

Proposed 2023-2025 Triennial Disadvantaged Business Enterprise (DBE) Goal Available for Public Review

NOTICE IS HEREBY GIVEN that AC Transit proposes a 2% Disadvantaged Business Enterprise (DBE) Goal for Federal Fiscal Years 2023 through 2025.

Through prescribed Federal Transit Administration (FTA) methodology, outreach to the small business community, and consultation with regional, AC Transit staff recommended the proposed goal to their Board of Directors on June 8, 2022.

Staff Report 22-241 provides additional details and is available at:

Copies of the report are also available from the District Secretary's Office by calling (510) 891-7201.

The goal pertains to FTA funded contracting opportunities only, spanning the next three federal fiscal years beginning October 1, 2022 and ending September 30, 2025. The proposed goal is primarily based on an availability analysis of available DBE firms relative to all firms available for identified, non-transit vehicle purchases, contracting opportunities grouped by the North American Industry Classification System (NAICS).

In the event that anticipated FTA funding is modified (i.e., increased or decreased) and would potentially impact projected contracting opportunities, the proposed 2% DBE goal will be re-evaluated and if need be, adjusted accordingly.
