City's Authority to Impose Development Impact Fees

- The power to exact development impact fees arises from the city's police power to protect the public health, safety and welfare. (Cal. Const., Art. XI, § 7.)
- The police power allows a city to act in the interest of its citizenry and to enact and enforce ordinances and regulations that are not in conflict with state law. Charter cities have the additional power to regulate by virtue of their plenary authority with respect to municipal affairs. (Cal. Const., Art. XI, § 5.)
