Finally, Getting Credit – On Friday, April 28, Training and Education Department (TED) staff visited Chabot College’s Applied Technology and Business department, strengthening the partnership and leading to AC Transit employees earning college credits. Introducing ZEBU in 2022 to Chabot Las Positas Community College District’s Office of Apprenticeship (CLPCCD) began a newfound relationship with the intent to upscale the District’s State of California, Division of Apprenticeship Standards’ Heavy Duty Coach Maintenance Mechanic Apprenticeship Program into one that apprentices can earn college credits, up to and including, a Chabot College Certificate of Achievement. CLPCCD, Chabot College faculty, led by Dean Dr. Tracey Coleman, and TED staff are all working

together to meet post-secondary accreditation requirements to complete this process by Fall 2023. Social Media Campaigns -AC Transit communications staff continued collaborating with HR to aid recruitment with social media posts about careers in transportation, including promoting the May 20 hiring event. For “National Superhero Day” on April 28, posts presented operators and mechanics as everyday superheroes. Other recent campaign themes included the promotion of the Customer Satisfaction Survey, coverage of the District’s presence at the APTA Mobility Conference, and tie-ins with National Library Week, Earth Day, Spare the Air Day, and Amtrak’s 52nd anniversary.

Happy #NationalSuperheroDay! 🦸🦹

Our bus operators, mechanics, and staff may not have superpowers, but they work tirelessly every day to make sure our community can get where they need to go.

They're the true superheroes!

AC Transit Breakfast Briefings - AC Transit has recently completed a round of community briefings called “AC Transit Breakfast Briefings.” The briefings are an opportunity to update key stakeholders on the State of the District, including elected officials and community leaders. In particular, the District highlighted current initiatives, the financial circumstances of the agency given the impending exhaustion of federal relief, and the Realign effort currently underway. At the end of each presentation was a request from staff for participants to take the survey and share the survey with their networks so their clients and constituents can provide feedback. Briefing sessions were well attended, and participants were very engaged and had plenty of thoughtful questions during the Q&A session. Following each briefing, staff received feedback from participants that the sessions were informative and felt they were offered an opportunity to provide meaningful feedback. This round of briefings served as a means of providing “grasstop” leaders additional context for the Realign effort.
