

REPORT 20-102
March Service Changes

The March sign-up is generally reserved for making minor adjustments to service based on feedback received after the August sign-up. This sign-up, however, continues the District's focus on improving service reliability through runtime and layover adjustments to account for increased congestion.

The following changes will take place in the March sign-up:

- Allocated major resources to boost reliability on lines 20 and 21.
- Reliability improvements on lines 10, 28, 34, 40, 72R, 99, 200, 216, 232, LA, NL, SB, and U.
- Service-level adjustments on line 60 due to developments with CSU East Bay.
- Minor trip time adjustments to lines 36, 801, and F to better match service to demand.
- BRT could be implemented mid-signup (May 2020).
